

Guidelines for CELL BIOLOGY qualify examination 2019

Textbook: Molecular Biology of the Cell, by Alberts *et al.* (6th edition), Chapters 10-19.

Format: Open-textbook examination. Electronic devices are prohibited.

Examination duration: 4 hours

The maximum score of this test is 100. You need a score of 70 or higher to pass this examination.

EXAMINATION procedures:

Step 1: Choose a question

- 1.1. You will be provided with the Titles and Abstracts of three Cell Biology review articles.
- 1.2. Please choose one of them as your exam question.
- 1.3. Obtain the complete copy of your selected article from the teaching assistant.

Step 2: Answer your question

- 2.1. Write down your summary of the selected article.
- 2.2. Based on the contents of the article and the relevant parts of the designated textbook, state the recent advances of this specific area of Cell Biology.

Note:

You are allowed to switch your article of choice, but only once.
